

Intraday Web

Efficient, simple,
secure trading

Intraday Web

Efficient, simple, secure

Nord Pool has been delivering efficient, simple and secure power trading across Europe for over 20 years. To meet the ever-changing demands of the modern power market we have developed Intraday Web, a streamlined trading platform connecting key European markets and making buying and selling power easy.

Change the way you trade

- Intraday Web gives you unlimited access to all Nord Pool intraday markets through a simple-to-use HTML5 web-based interface
- Our FREE Intraday API integrates your systems with Intraday Web, allowing seamless and fully automated trading
- Complete access to European product offerings including 15, 30 and 60 minute, block and iceberg products
- Flexible and customisable interface to suit your preferences, with unique features for specific markets
- Import orders quickly and easily directly from Excel
- Specifically developed for cross-border coupling with XBID-ready technology

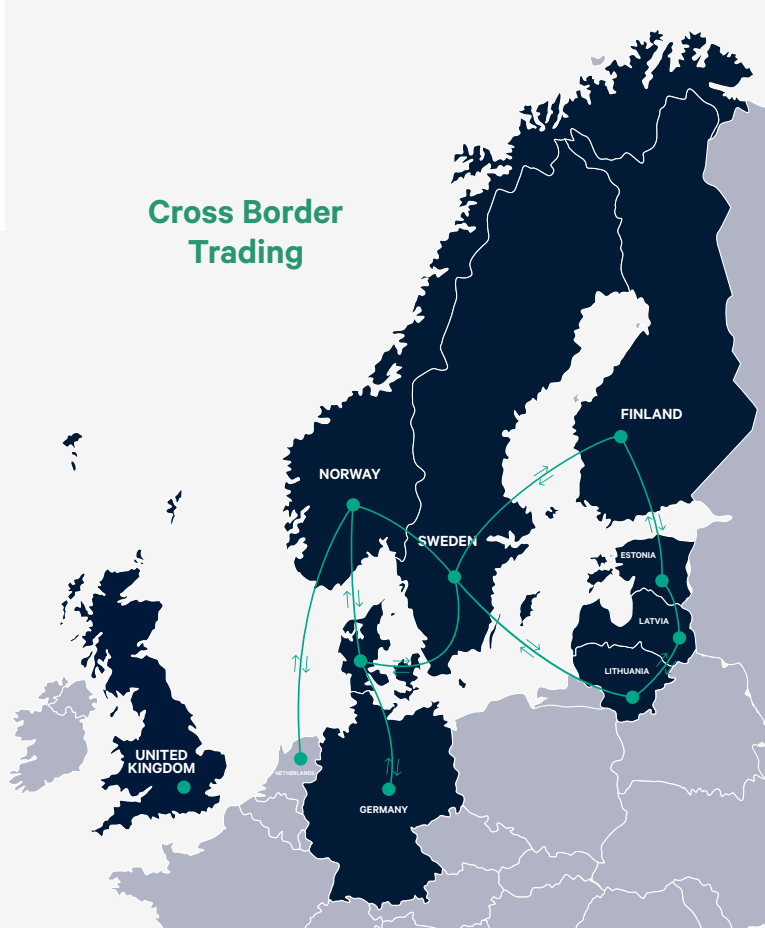

Market features

We understand that each market is different, so Intraday Web has been customised to match the individual needs of the Nordic, Baltic, UK and German markets which all benefit from adapted features to enhance your trading experience.

Market	Feature
Nordics, Baltics and Germany	Joint liquidity from Nordic, Baltic and German markets
Germany	Trade right up to delivery within the four TSO areas Trade up to 20 minutes before gate closure across TSO areas
Multiple markets	Upload orders from multiple market areas simultaneously using a single Excel spreadsheet

UNIQUE

UNIQUE

Intraday API

Use our FREE Intraday API to integrate your internal systems with Nord Pool markets, enabling automation of your trading and operations activities and maximising your market opportunities.

Internal systems can be programmed to submit and amend orders automatically, while the software collects real-time data for trade analysis and historical data for your records.

For added peace of mind, our API rate limits are managed to help maintain a robust and secure platform¹.

REMIT Compliance

Register for Nord Pool's REMIT Transaction Reporting Service which gathers all transactions conducted within the platform and automatically reports them to ACER.

Easily accessible overviews and detailed reports give you confidence that your transactions are REMIT compliant.

¹ API rate limits may fluctuate up or down in order to maintain a robust system
