SPECIAL REGULATIONS FOR TRADING IN THE FINNISH ELECTRICITY EXCHANGE AREA TOWARDS RUSSIA

1. INTRODUCTION

- 1.1 These Regulations are part of the Trading Rules and contain detailed provisions on submission of orders and matching in the Finland-Russia Electricity Exchange Area.
- 1.2 The Finnish TSO, Fingrid, allocates a specific amount of available trading capacity day ahead for import and export from/to Russia. These capacities are published on the Nord Pool website by 10:00 CET every day on the Trading Day. The allocated capacity may be subject to special conditions as defined in the agreements referred to in point 1.3 below.
- 1.3 All Members who have entered into the relevant agreements with the Finnish TSO are permitted to open portfolios for Trading in the Finland-Russia Electricity Exchange Area.

2. SPECIAL RESTRICTIONS IN BIDDING FOR EXPORT TO OR IMPORT FROM RUSSIA

- 2.1 Only Hourly Orders are available for trading in the Finland-Russia Electricity Exchange Area.

3. PRICE AND VOLUME CALCULATION

- 3.1 Calculation of price and volume for the Finland-Russia Electricity Exchange Area follows the normal procedures described in the Elspot Market Regulations (Trading Rules Appendix 2a).
